1 Executive summary

TMHCC's Media & Music Combined wording is, structurally, the broadest in the peer group reviewed. It is the only wording that offers all fifteen sections in a single contract, and it is the only wording to provide Loss of Licence, Commercial Legal Expenses, Management Liability and a genuine standalone Cyber-liability section. Two of the four competitors (Liberty and Allianz) are property / business-interruption / liability combined packages and contain no media, professional-indemnity, production-indemnity, cyber, legal-expenses or management-liability cover at all.

The meaningful competition therefore sits in the sections the wordings share — principally Media Liability / Professional Indemnity (where Tysers, via Zurich, and Yutree, via AXA, both offer strong wordings) and the property / BI / liability suite (where Allianz and Liberty are mature property-led packages).

Headline conclusions

- **TMHCC wins outright:** TMHCC is broader or unique on at least six rows (Terrorism vs Tysers; Goods in Transit; Loss of Licence; Legal Expenses; Management Liability; standalone Cyber).
- **Competitors broader:** Tysers PI is worldwide, covers patents, funds statutory/criminal defence costs (GBP 1m), and adds a distributors-&-purchasers extension and journalistic source-protection costs. Tysers and Yutree both offer Personal Accident, which TMHCC does not.
- **Broadly equivalent:** Core media-liability grants (defamation, IP, privacy, professional negligence, defence costs in addition) are broadly equivalent across TMHCC, Tysers and Yutree.
- **TMHCC clearer:** TMHCC's data-protection defence costs, clean cyber-exclusion carve-out for the liability sections, and favourable fines/penalties write-back are clearer than at least one competitor.

Bottom line: TMHCC already presents as the most complete media & entertainment package in this peer group. A focused set of Media-Liability enhancements (a Personal-Accident option, a worldwide/US-Canada territory option, distributors & source-protection extensions, and a clarifying criminal-defence cross-reference) would let TMHCC show a tick on virtually every row — see the separate Gap-Fill / Wording Enhancement Strategy.

Comparison method

- All six wordings were parsed in full to text; coverage was compared by FUNCTION, not heading, because the wordings are structured differently.
- Section maps were taken from each policy’s contents/insuring clauses; feature-level findings from the operative clauses, extensions, conditions and exclusions actually read.
- Where a clause could not be verified from the wording it is marked ‘? requires review’ rather than assumed.
- No cover has been invented; competitor marketing language has not been treated as cover.
- TMHCC is recorded as having a gap ONLY where at least one competitor genuinely provides broader, clearer or materially useful cover.
- Exclusions, limits, conditions, warranties and write-backs were reviewed in detail and are not softened.
- Liberty and Allianz are property/Bi/liability combined packages and contain NO media/PI/E&O, production-indemnity, cyber-liability, legal-expenses or management-liability sections.
- Fifth competitor (Wording E) is shown as a PENDING placeholder column, to be completed when the wording is supplied.

Reading the matrices: ✓ = cover clearly present · ● = partial / conditional / sub-limited · ✕ = not covered / not identified · ? = unclear, requires review · — = not applicable. In the EXCLUSIONS tables only, ✓ means the exclusion APPLIES, ● means a partial exclusion or write-back, and ✕ means the exclusion is absent or carved back.

Tysers (S1 Production Property), Yutree (Production property), Allianz (S6 Specified All Risks). Liberty covers entertainment equipment via specified Schedule items rather than a dedicated all-risks section.
S3 • Business Interruption “All Risks”	✓	✓	✓	✓	✓	...	Competitor broader • All offer BI. Allianz is structurally broader – it splits Increased Cost of Working (S2a) and Book Debts (S3) into discrete sections. Confirm TMHCC S3 expressly covers ICOW/AICOW and

6 TMHCC strengths

Where the TMHCC base wording is demonstrably stronger, broader or clearer than the competitor wordings reviewed:

Strength	Why it matters
Widest section count in the peer group	The only wording reviewed offering all 15 sections in a single contract — a genuine ‘one-stop’ media & entertainment package.
Four sections no competitor offers	Loss of Licence (S10), Commercial Legal Expenses (S13), Management Liability (S14) and a standalone Cyber-liability section (S15 CyberGuard) are unique to TMHCC across the peer group.
Standalone cyber that is genuine liability cover	CyberGuard provides multimedia, security & privacy, privacy-regulatory defence & penalties and PCI DSS cover — not merely first-party computer breakdown.
Broad, well-extended Media Liability (S12)	Wide ‘any other civil liability’ grant plus employee-dishonesty write-back, Data-Protection Defence Costs (GBP 250k), Reputation Management (GBP 250k), Withdrawal of Content (GBP 250k), IP-pursuit costs (GBP 25k) and M&A auto-acquisition.
Clean exclusion architecture	The general cyber/date exclusion is dis-applied to Sections 12–15, so the liability sections are governed by their own bespoke terms — avoiding the ‘silent-cyber strip’ seen in a competitor PI section.
Favourable fines/penalties carve-back	Non-compensatory damages are written back for libel/slander/defamation awards and for punitive damages where the law permits payment.
Protective, clearly-drafted claims architecture	Claim notification is an express condition precedent; aggregation, retroactive date and territorial/jurisdiction terms are clearly defined.

7 Areas where competitors are broader

Stated objectively – where a competitor genuinely provides broader, clearer or materially useful cover. Each item is carried into the separate Gap-Fill / Wording Enhancement Strategy.

Area (competitor)	What the competitor does / TMHCC position
Worldwide PI territory (Tysers)	Tysers PI/E&O is worldwide; TMHCC S12 is limited to the Schedule Geographical Limits and excludes actions brought outside the stated Jurisdiction.
Patent infringement (Tysers)	Tysers covers patent infringement within IP; TMHCC (and Yutree) exclude it.
Statutory / criminal defence costs (Tysers & Yutree)	Tysers funds Bribery/Corporate-Manslaughter/H&S/CDM defence (GBP 1m); Yutree funds criminal-prosecution defence (GBP 250k). TMHCC S12 funds only data-protection defence (broader criminal cover sits in S13/S14).
Distributors & purchasers (Tysers)	Tysers extends PI to purchasers/co-producers/distributors of the insured's media material (5x limit) – absent from TMHCC.
Journalistic source protection (Tysers)	Tysers funds legal costs to challenge a subpoena requiring disclosure of a source – absent from TMHCC.
Personal Accident & Business Travel (Tysers; Yutree assault)	Tysers has an extensive PA/business-travel section; Yutree covers PA assault. TMHCC has no PA section.
Granular BI heads (Allianz)	Allianz splits Increased Cost of Working and Book Debts into discrete sections – a presentational advantage.
Standalone Computer Breakdown (Yutree)	Yutree offers a dedicated computer-breakdown section; TMHCC consolidates IT breakdown within S1/S2 – confirm it is explicit.
Limited pollution write-back in PI (Yutree)	Yutree grants a limited pollution write-back for the insured's own negligent act/error/omission.
KC dispute-resolution clause (Yutree)	Yutree's clear King's Counsel arbitration clause for defence disputes is a drafting-clarity advantage.

							Sections 12-15; Tysers dis-applies Electronic Risk to S8 PI. Yutree's PI carries a broad cyber/data exclusion.
Date recognition / data-processing failure	✓	✓	✓	✓	✓	...	Standard 'millennium/date'-style exclusion. Tysers dis-applies it to S8/S9. Equivalent in substance.
Communicable disease / pandemic	✓	✗	?	?	?	...	TMHCC carries a BROAD communicable-disease exclusion (applies notwithstanding all other terms). Not identified in Tysers general exclusions; Yutree/Liberty/Allianz require confirmation. TMHCC is more protected here (a deliberate restriction).
Sanctions / trade restrictions	✓	✓	✓	✓	✓	...	All carry a sanctions clause. TMHCC has both a Trading-Sanctions and an International-Sanctions clause. Equivalent.
Northern Ireland (civil commotion) / sonic bangs	?	✓	?	✓	✓	...	Standard UK property-package carve-outs present in Tysers/Liberty/Allianz; TMHCC treatment within property sections requires confirmation.

Bodily injury / property damage	✓	✓	✓	—	—	...	Excluded unless arising from negligent publication/advice. Equivalent.
Fines / penalties / punitive damages	🕒	?	?	—	—	...	TMHCC excludes non-compensatory damages BUT writes back libel/slander/defamation awards and punitive damages where the law permits payment — a favourable, clearly-drafted carve-back. Competitor positions require review.
Prior known claims / circumstances	✓	✓	✓	—	—	...	Excluded by all (claims-made hygiene). Equivalent.
Insolvency / financial failure of the insured	✓	?	?	—	—	...	TMHCC expressly excludes claims arising from its own insolvency/liquidation. Competitor positions require review.

							PI is WORLDWIDE (no such exclusion). Yutree restricts US/Canada exposure. Competitor (Tysers) broader.
Patent infringement	✓	✗	✓	—	—	...	TMHCC and Yutree exclude patents; Tysers covers patent infringement. TMHCC sensibly more restrictive.
Cyber act / breach of data-protection law (within PI)	✗	✗	✓	—	—	...	Yutree's PI carries a broad cyber-act & data-protection-law exclusion. TMHCC instead grants bespoke cover (virus, unauthorised access, DP defence costs) — TMHCC broader/clearer.
Pollution / seepage	✓	✓	◐	—	—	...	TMHCC and Tysers exclude pollution from PI; Yutree grants a limited write-back for the insured's own negligent act/error/omission.

Exclusions — key takeaways: TMHCC is sensibly MORE protected on communicable disease, patents and US/Canada jurisdiction. The genuine write-back opportunities a competitor offers are: asbestos professional-duty (Tysers), pollution negligent-advice (Yutree) and a rated worldwide/US-Canada PI option (Tysers). TMHCC is clearer where its cyber/date exclusion is dis-applied to the liability sections, avoiding a 'silent-cyber strip' of PI.

9 Conditions, warranties and claims obligations

Condition / obligation	TMHCC	Tysers (Zurich)	Yutree (AXA)	Liberty	Allianz
Claim notification	Express CONDITION PRECEDENT to liability – notify as soon as practicable (S1–11); S13 within 28 days; S12 claims-made notification during the period. Among the most protective drafting.	Notification under Special Condition 1; S8 PI is claims-made.	Claims-made; defined notification conditions for claims and claim circumstances.	Forward every claim document immediately on receipt.	Forward claim/notify in accordance with claims condition; potential proportionate remedy.
Basis of cover (PI/Media)	S12 Media Liability is claims-made with Retroactive Date; defence-costs in addition.	S8 PI/E&O claims-made; defence costs in addition; Excess does not apply to defence costs.	PI-Media claims-made; retroactive date; defence costs in addition.	n/a – no PI/media section.	n/a – no PI/media section.
Reasonable precautions / cyber-security conditions	S12 imposes detailed computer-security conditions (firewall, AV, password change every 60 days, encryption, logging, regular back-ups) and 'reasonable steps to avoid loss'.	Loss-of-documents condition requires back-ups at least every 7 days held off-site.	Reasonable-precautions and security expectations apply.	General 'your duties' / reasonable precautions section.	Reasonable-precautions and maintenance conditions.
Change of control	S12 cover ceases on a change of control unless notified and agreed by endorsement.	Requires review.	Addressed via subsidiary creation/acquisition cover.	n/a (no PI).	n/a (no PI).
Premium payment	S12 premium payment clause – 60 days, with 15-day cancellation notice.	Per policy/General Conditions.	Premium-adjustment condition with cancellation rights.	Standard cancellation section.	Standard cancellation provisions.
Fair presentation (Insurance Act 2015)	Duty of fair presentation applies (UK).	Duty of fair presentation; Zurich data terms.	Express duty of fair presentation.	'About this policy / your duties' – fair presentation.	Fair-presentation conditions.
Defence / dispute resolution	Insurer consent required (CP); general mediation/dispute condition (England & Wales).	Insurer controls defence; consent to settle.	Clear King's Counsel arbitration clause for defence/settlement disputes – strong drafting.	Insurer conduct-of-claims rights.	Insurer conduct-of-claims rights.

Claims obligations: TMHCC's claim-notification is an EXPRESS condition precedent to liability – among the most protective drafting in the peer group, and a point to retain (not soften). Yutree's King's Counsel dispute clause is a drafting-clarity advantage TMHCC could adopt.

10 Limits, sub-limits and excess comparison

Primary limits and excesses are schedule-driven and were not supplied; the table below compares the principal SUB-LIMITS within the Media Liability / PI sections (Liberty and Allianz have no PI section).

- Confirm communicable-disease exclusion positions in the Yutree, Liberty and Allianz wordings (TMHCC carries a broad exclusion).
- Confirm Tysers and Yutree positions on fines/penalties and insolvency exclusions within PI (marked 'review').
- Confirm Increased Cost of Working / Book Debts and computer-breakdown are expressly addressed within TMHCC S3 and S1/S2 respectively.
