2 Document handling

- **Existing tracked changes accepted before new edits:** Yes — the uploaded clean wording contained no residual revisions; accepted to form the clean baseline.
- **Fresh tracked changes used for new edits:** Yes — a new tracked-changes layer was started from the baseline; no old tracked changes carried forward.
- **Each amendment discrete / individually accept-reject-able:** Yes — each amendment is a self-contained insertion or deletion at a distinct location.
- **Sub-limit / definition changes show old → new:** Yes — definition replacements (A5, A6) delete the old text and insert the new, so the original remains visible.
- **Clean final version also produced:** Yes.
- **Branding / layout / hyperlinks / numbering:** Preserved — inserted headings reuse existing styles without auto-numbering; no section/column or contents-page changes made.

4 Part A results

Item	Result
A1 · Artists’ Equipment extension (Section 2)	Confirmed – no change — No change — confirmed present and correctly placed. NOT duplicated.
A2 · Stock and merchandise (Section 2)	Confirmed – no change — No change — merchandise held for sale is already within “Stock”.
A3 · Data recovery from old Section 4	Confirmed – no change — No change — treatment preserved faithfully; nothing to reinstate (no duplicate created).
A4 · Touring / music-activity money (Section 8)	ADDED (tracked) – figure cannot be determined; underwriting to set — ADDED as a discrete tracked change. Sub-limit set as SCHEDULE-REFERENCED (‘the sum stated in the Schedule against this Extension’). The attached entertainment competitor wordings (Tysers, Yutree) write their Money cover on a SCHEDULE-DRIVEN basis with no fixed ‘touring money’ figure, so a specific market-highest figure CANNOT BE DETERMINED and has not been invented — underwriting to set the figure.
A5 · Employee definition — breadth vs Yutree & Tysers	BROADENED (tracked) – Section 13 only — BROADENED the Section 13 definition (discrete tracked change, old text deleted / new inserted) to be at least as wide as Tysers & Yutree and consistent with the general Sections 1–11 definition. Tysers (General Definitions, p.9) and Yutree (‘Employed person’, p.88) verified from the attached wordings. The general S1–11, S12 and S14 definitions already meet/exceed the competitors — left unchanged for internal consistency.
A6 · Cyber / Computer System definition consistency (S12 vs S15)	ALIGNED (tracked) – SIGN-OFF (Section 12) — ALIGNED — the Section 12 ‘Computer System’ definition has been replaced (discrete tracked change, old deleted / new inserted) with a broad definition consistent with Section 15 / the property endorsement, expressly stated to be construed consistently with Section 15. Virus (S12) and the cyber triggers were reviewed and are substantively consistent; no further change required. ALL SECTION 12 CHANGES REQUIRE LEGAL/UNDERWRITING SIGN-OFF.

7 Final QA checklist

- Existing tracked changes accepted before new edits — Yes.
- New edits shown as fresh, discrete tracked changes — Yes (10 amendments).

- Gap analysis granular (clause/definition level) and bridges every genuine gap except Personal Accident and Travel.
- Sub-limits raised to market-highest where evidenced; un-evidenced flagged, not invented or lowered.

- Gap analysis is a SEPARATE document; the Coverage Comparison is client/broker-facing and contains no gap content.
- Summary of Changes vs 0223C produced; Summary of Cover updated to final wording only.
- No Personal Accident, no Travel added; Personal Assault under Money preserved and distinct.

8 Reviewer notes / UNCONFIRMED

- ALL Section 12 (Media Liability) amendments are applied as discrete tracked changes but REQUIRE legal/underwriting sign-off before acceptance (A6, B1–B7).
- A4 Touring/Entertainment Money: a specific market-highest figure CANNOT BE DETERMINED — the attached entertainment competitor wordings write Money cover on a schedule-driven basis. Sub-limit left schedule-referenced; underwriting to set the figure.
- PART C sub-limit harmonisation: TMHCC already meets or exceeds every evidenced competitor numeric sub-limit, or is schedule-driven (broker-set). No existing TMHCC sub-limit was raised because no attached competitor figure is demonstrably higher for the same benefit; none was invented and none was lowered.
- A5 Employee: Tysers (p.9) and Yutree ('Employed person', p.88) definitions verified from the attached wordings. The general Sections 1–11, S12 and S14 definitions already meet/exceed them; only the narrow Section 13 definition was broadened.
- Patent infringement (Gap 8) deliberately left excluded; Asbestos negligent-advice write-back (Gap 9) parked for consideration with proposed wording — neither applied.
- Personal Accident and Travel deliberately NOT added (per instruction). Personal Assault under the Money section (S8, Sub-Section 2) is distinct and retained unchanged.
- 'Market-leading'/'highest-in-market' statements are supported by the five attached competitor wordings. Items that could not be traced to an attached wording are labelled CANNOT-DETERMINE / UNCONFIRMED above.
