

PHASE 00 · SOURCE INVENTORY

Source Inventory & Workplan

Documents reviewed, baseline/final identification, and the eight-phase workplan

Wordings reviewed

- TMHCC 0223C (baseline) · TMHCC final (58b8340)
- Six competitors: Tysers, Yutree, Liberty, Allianz, AXA XL, Entertainment Elite

Prepared as the first step of the TMHCC full-redline reset + six-insurer legal review + PolicyBridge workflow blueprint.

TRUE baseline: TMHCC 0223C. Final wording: TMHCC Media & Music Combined at commit 58b8340.

No cover invented; comparisons are by legal effect, grounded in the parsed wordings.

1. Documents found and reviewed

Document	Status	Location / notes
TMHCC 0223C — OLD wording (TRUE BASELINE)	Found	/app/work/source/OLD_0223C.docx The true comparison baseline. 2713 non-empty paragraphs; 13-section structure (Information Technology = old Section 4).
TMHCC final wording (commit 58b8340)	Found	/app/deliverables/ TMHCC_Media_Combined_0526_FINAL_Clean.docx Latest clean final wording (round-9 state at commit 58b8340). 3805 non-empty paragraphs; 15-section structure.
Competitor 1 — Tysers 'Focus' Media (capacity Zurich)	Found	/app/work/compare/src/Tysers.pdf + txt/Tysers.txt 9 sections; full media package incl. PI/E&O and Personal Accident & Business Travel.
Competitor 2 — Yutree Media & Entertainment (capacity AXA)	Found	/app/work/compare/src/Yutree.pdf + txt/Yutree.txt 12 sections; media package incl. PI-Media/PI-Events; broad Abuse definition + exclusion.
Competitor 3 — Liberty Entertainment Combined	Found	/app/work/compare/src/Liberty.pdf + txt/Liberty.txt 6 sections; property/BI/liability package (no media/PI/cyber/legal/mgmt).
Competitor 4 — Allianz Entertainment 'Complete'	Found	/app/work/compare/src/Allianz.pdf + txt/Allianz.txt 8 sections (+ Terrorism); property/BI/liability package; splits ICOW/Book Debts.
Competitor 5 — AXA XL Media & Entertainment Combined Corporate	Found	/app/work/compare/src/AXAXL.pdf + txt/AXAXL.txt 3 operative sections (MD/BI/Liability); terrorism & punitive excluded absolutely; broad cyber exclusion; explicit Abuse exclusion 7.8.1.
Competitor 6 — Entertainment Elite (v3.2)	Found	/app/work/r9/src/EntertainmentElite.pdf + txt/EntertainmentElite.txt 8 sections; property/BI/Money/liability/terrorism; detailed event-Money section (source of the Money restructure).
Current coverage comparison (client-facing)	Found	/app/deliverables/ TMHCC_Media_Coverage_Comparison_FULL.docx Round-8/9 6-competitor matrix. To be REBUILT in Phase 04 (cleaner one-page matrix + appendix).
Current gap-fill / enhancement strategy	Found	/app/deliverables/ TMHCC_Media_GapFill_Enhancement_Strategy.docx Round-8/9 internal gap analysis. To be UPDATED in Phase 05 from the refreshed legal review.
Current summary of cover	Found	/app/deliverables/ TMHCC_Media_Combined_Summary_of_Cover_FINAL.docx Round-8/9 summary of cover (final wording only).
Current summary of changes	Found	/app/deliverables/ TMHCC_Media_Combined_Summary_of_Changes_FINAL.docx Round-8 summary of changes. NOTE: prior change docs were NOT a holistic 0223C→final redline — the reason for Phases 01–02.
Existing tracked-changes versions	Found — NOT used as the redline	/app/deliverables/ TMHCC_Media_Combined_0526_FINAL_TrackedChanges.docx Prior tracked-changes showed only recent enhancements on a clean 0526 baseline; NOT relied upon. Phase 01 regenerates the full 0223C→final redline from scratch.
Grounded competitor analysis data	Found	/app/work/compare/cmpdata.py + /app/work/r8/cmpdata9.py + r8data.py Section matrix, media-feature matrix, exclusions, conditions, sub-limits, competitor profiles, gaps — all derived from the parsed wordings (reused + refined this round).
Branding template	Found	/app/work/source/TEMPLATE_SummaryOfCover.docx + /app/work/compare/tpl/Template.docx Tokio Marine HCC branding (logo, Lato, teal/gold/rust palette, legend) used for all generated documents.

PolicyBridge app project files	Found	/app/backend (FastAPI Document Centre) + /app/frontend (React) Used ONLY for the Phase 07 audit/rebuild prompt; not modified by this workflow.
--------------------------------	-------	---

2. Baseline and final wording identification

TRUE comparison baseline: TMHCC 0223C old wording — /app/work/source/OLD_0223C.docx. This 13-section wording (with a standalone Information Technology Section 4) is the genuine prior contract clients are migrating FROM.

Final wording (commit 58b8340): TMHCC Media & Music Combined final clean wording — /app/deliverables/TMHCC_Media_Combined_0526_FINAL_Clean.docx. 15-section structure. The repository HEAD is a few auto-commits ahead of 58b8340 but the working-tree final clean wording is the round-9 state and is treated as the final wording for this comparison (assumption logged below).

3. Six competitor wordings under review

- Tysers 'Focus' Media (capacity Zurich) — 9 sections, full media package
- Yutree Media & Entertainment (capacity AXA) — 12 sections, broad Abuse definition + exclusion
- Liberty Entertainment Combined — 6 sections, property/BI/liability
- Allianz Entertainment 'Complete' — 8 sections (+Terrorism), property/BI/liability
- AXA XL Media & Entertainment Combined Corporate — 3 operative sections; explicit Abuse exclusion (7.8.1)
- Entertainment Elite (v3.2) — 8 sections, detailed event-Money section

4. Existing supporting documents

- **Coverage comparison:** Coverage comparison (client-facing) — present; to be REBUILT (Phase 04).
- **Gap-fill strategy:** Gap-fill / enhancement strategy — present; to be UPDATED (Phase 05).
- **Summary of cover:** Summary of cover — present (final wording only).
- **Summary of changes:** Summary of changes — present, but NOT a holistic 0223C→final redline.

5. Existing tracked changes — and why they are NOT relied upon

An existing TrackedChanges document is present (TMHCC_Media_Combined_0526_FINAL_TrackedChanges.docx). It shows only the recent enhancement edits applied to an already-clean 0526 baseline — NOT the full set of changes from 0223C. It is therefore NOT used as the redline. Phase 01 regenerates a complete 0223C→final tracked-changes redline directly from the two wordings.

6. UW enhancements — identifiable?

Yes. The rounds 7–9 enhancements still requiring underwriting/legal review are individually identifiable from the wording-build engine and have been catalogued. In the Phase 01 redline they are tagged under a separate tracked-change author ('UW Review Enhancement', yellow-highlighted) and listed in the UW Enhancement Register (14 items).

Auto-detected in redline	Count of tagged paragraphs
Computer System definition aligned to S15 (S12)	1
Costs for the Protection of Journalistic Sources (S12)	2

Criminal & Regulatory Defence Costs cross-reference (S12)	3
Distributors & Purchasers extension (S12)	2
Employee definition broadened (S13 Legal Expenses)	1
King's Counsel determination clause (S12)	1
Money - Premises extension (S8)	1
Money - Touring, Festivals and Events extension (S8)	5
Money extensions (S8)	2
Pollution negligent-advice write-back (S12)	1
Proof of Ownership and Value (claims condition, S1-11)	5
Representation Costs at Investigations & Inquiries (S12)	2
Worldwide Territory & Jurisdiction (Optional) (S12)	2

7. Missing files / uncertainty

- Policy Schedules (limits, excesses, sub-limit figures, section toggles) were NOT supplied — section availability and sub-limits reflect the wording booklets only; Schedule-driven figures are flagged 'per Schedule'.
- The repository HEAD (2e0aba9) is a few auto-commits ahead of 58b8340; the working-tree final clean wording is treated as the 58b8340 final (no wording difference observed in the auto-commits).
- Competitor schedules were not supplied; competitor 'silence' on a peril (e.g. abuse) means no express clause was located, not a confirmed grant of cover — flagged for legal confirmation.

8. Confirmed eight-phase workplan

Phase	Output
Phase 01	Full 0223C→final tracked-changes redline (from scratch) + clean final + UW Enhancement Register
Phase 02	Detailed 0223C→final change summary (per-section, with client-migration implications)
Phase 03	Six-insurer legal competitor review reset (incl. dedicated Abuse / Tysers section)
Phase 04	Rebuilt six-insurer coverage comparison (clean one-page matrix + appendix)
Phase 05	Updated gap-fill strategy (copy-paste wording + exact locations)
Phase 06	PolicyBridge Wording Studio workflow playbook
Phase 07	PolicyBridge audit/rebuild prompt
Phase 08	Final pack assembly + QA report (+ PDFs)
