

PHASE 02 · CHANGE SUMMARY

Detailed Change Summary

Every material change from TMHCC 0223C to the final wording (commit 58b8340)

Wordings reviewed

- TMHCC 0223C baseline
- TMHCC final wording (commit 58b8340)

Generated from the full redline: 2713 baseline paragraphs vs 3805 final paragraphs; 2067 insertions, 973 deletions, 118 inline amendments tracked.

Favourable / Neutral / Restrictive flags and sign-off requirements are shown per change.

No cover invented; exclusions and conditions not softened.

A. Section renumbering & relocation map (0223C → final)

The single most important migration point: the standalone Information Technology Section (old S4) was removed and its cover consolidated into S1/S2, so every later section is renumbered, and three new sections (S13–S15) were added — 13 sections became 15.

0223C section	Final section	Note
isks"	S1 Business "All Risks"	Retained; now also houses IT-property cover.
roperty "All Risks"	S2 Property & Equipment "All Risks"	Renamed; absorbs equipment + IT equipment.
ruption	S3 Business Interruption	Retained; 'Accounts Receivable' → 'Book Debts'.
echnology	— (removed)	STANDALONE SECTION REMOVED; cover consolidated into S1/S2.
ility	S4 Terrorism	Renumbered –1.
	S5 Employers' Liability	Renumbered –1.
	S6 Public Liability	Renumbered –1; abuse exclusion retained (see Phase 03).
ity	S7 Products Liability	Renumbered –1.
	S8 Money	Renumbered –1; restructured into two Schedule sub-limits.
nsit	S9 Goods in Transit	Renumbered –1.
ce	S10 Loss of Licence	Renumbered –1.
ndemnity	S11 Production Indemnity	Renumbered –1.
y	S12 Media Liability	Renumbered –1; seven new extensions (UW sign-off).
	S13 Commercial Legal Expenses	NEW SECTION.
	S14 Management Liability	NEW SECTION.
	S15 CyberGuard™ (Cyber Liability)	NEW SECTION.

B. Detailed change table

Legend — Effect: green = favourable, grey = neutral, red = restrictive. 'Type' = material / technical / structural / formatting.
'Source' = Base redline change vs UW Review Enhancement (awaiting sign-off).

0223C position	Final position	Exact change & practical effect	Effect	Broke r?	Sign- off?	Type
o formal machine-generated contents.	Two-column hyperlinked 'Policy Contents' with accurate page numbers and footer pagination.	Added navigable Contents; live page numbers. — Easier navigation; no cover change.	Neutral	No	No	Formatting / structural
standard complaints and data-protection notices.	Expanded complaints route incl. Financial Ombudsman Service (FOS) and EU ODR platform; Consumer-specific notice.	Clarified regulatory complaints and consumer rights. — Better consumer compliance; no cover change.	Neutral	No	No	Technical
sanctions handled within general conditions.	Express 'Trading Sanctions or Restrictions' notice added to the front matter (in addition to the International Sanctions clause).	Reinforces sanctions position. — Stronger sanctions protection for the insurer.	Neutral / Restrictive	No	No	Technical
'insuring Agreement' clause framed around 13 sections.	Re-cast: cover applies 'in respect of any Section shown in the Schedule as operative'; aligned to the 15-section structure.	Schedule-driven operative-section logic made explicit. — Clarifies that only scheduled sections are operative.	Neutral	Yes	No	Structural
definitions listed; fewer defined terms; some inline.	Each defined term promoted to its own heading; new terms added to support the three new sections (Legal Expenses, Management Liability, Cyber).	Many new/expanded definitions; clearer presentation. — More defined terms can both widen and tighten triggers — review on a term-by-term basis.	Neutral	Yes	Yes	Material / structural
general conditions stated 'Applicable to Sections 1–12'.	Re-scoped to 'Applicable to Sections 1–11'; Sections 13–15 carry their own specialist conditions which prevail on conflict. New 'Premium Instalments via a Finance Provider' condition added.	Conditions framework re-aligned to the new section map; finance-provider condition added. — Clients must read the new specialist conditions for S13–15; general conditions no longer reach the new liability sections.	Neutral	Yes	Yes	Structural
security-devices maintenance condition with no carve-out for bells-only alarms; '1–12'.	Re-scoped '1–11'; 'bells only' intruder alarms expressly excluded from the maintenance condition.	Minor easing of the security-maintenance condition. — Slightly more favourable for insureds with bells-only alarms.	Favourable	Yes	Yes	Material
claim-notification obligations within claims conditions.	S1–11 notification is an ordinary obligation ('will notify... as soon as practicable'); section-level notification for S12–S15 operates as a condition precedent; police/security/storage/risk-improvement conditions retained.	Notification architecture clarified; not a blanket condition precedent for 1–11. — Clients must note that the new liability sections (S12–S15) have stricter, section-specific notification.	Neutral	Yes	Yes	Material
blanket condition precedent ('the insured must not admit liability...').	Replaced with an ordinary condition qualified by prejudice (insurer may rely on breach only to the extent prejudiced).	Relaxation of a condition precedent. — More favourable to insureds; explain as fairer claims handling.	Favourable	Yes	Yes	Material
no express proof-of-ownership condition.	New condition: the Insured must, on request, produce reasonable proof of ownership and value.	New claims-handling condition for property/theft claims. — Clients should retain receipts/valuations; confirm whether ordinary condition or CP.	Neutral / Restrictive	Yes	Yes	Material
general exclusions 'Applicable to Sections 1–12'; references to the Information Technology Section.	Substantively unchanged but re-scoped 'Applicable to Sections 1–11'; stray Information-Technology-Section references corrected.	Scope re-aligned; no substantive widening/narrowing of the exclusions themselves. — Exclusion content is essentially carried across; re-scoping is the material point.	Neutral	No	Yes	Structural
standalone 'Section 4: Information Technology Section' (IT property + computer breakdown).	REMOVED as a standalone section; IT property cover consolidated into Section 1 (premises) and Section 2 (Property & Equipment).	Whole-section relocation; the IT heading disappears. — Clients must be told IT-property/breakdown cover is RETAINED inside S1/S2 (confirm no narrowing).	Neutral / Restrictive	Yes	Yes	Material / structural
Section 2: Production Property "All Risks".	Renamed 'Section 2: Property & Equipment "All Risks"'; absorbs production/entertainment equipment + IT equipment.	Rename + scope consolidation. — Same cover, broader/clearer label; confirm equipment + IT both captured.	Neutral	Yes	No	Structural

TMHCC Media & Music Combined — Change Summary
0223C → Final

with 'Accounts Receivable'.	'Accounts Receivable' re-labelled 'Book Debts'; ICOW/AICOW named.	Presentational relabel for like-for-like comparison. — No cover change; clearer BI heads.	Neutral	No	Yes	Technical
Single Money section.	Restructured into two Schedule-referenced extensions — 'Money – Premises' and 'Money – Touring, Festivals and Events' (the latter amalgamating event-money: safes/containers, assault on personal effects, employee dishonesty discovered within 12 months). Existing covers preserved.	Money cover split into two clearer Schedule sub-limits + touring/event money added. — Touring/festival clients gain clearer event-money; sub-limits set by Schedule.	Favourable	Yes	Yes	Material
Media Liability with core PI/E&O grants.	Core cover retained; SEVEN new S12 enhancements added (Representation Costs; Journalistic Source-Protection; Criminal/Regulatory Defence cross-reference; Distributors & Purchasers 5x; Worldwide/USA-Canada optional; King's Counsel determination; Pollution negligent-advice write-back) + broadened 'Computer System' definition.	Materially broadened Media Liability — all held for sign-off. — Brokers can position broader S12 cover, but only once UW/legal sign-off is obtained.	Favourable	Yes	Yes	Material
Legal-expenses section.	New ARAG-style Commercial Legal Expenses section (employment, contract, tax, statutory defence etc.); broadened 'Employee' definition.	Entirely new cover (Schedule-operative). — New benefit to highlight; operative only if shown in the Schedule.	Favourable	Yes	Yes	Material
Management-liability section.	New Management Liability section (D&O, Company, Employment Practices / Wrongful Employment Practice, etc.).	Entirely new cover (Schedule-operative). — New benefit to highlight; operative only if shown in the Schedule.	Favourable	Yes	Yes	Material
Standalone cyber section.	New standalone CyberGuard™ (Cyber Liability) section (multimedia, security & privacy, privacy-regulatory defence & penalties, PCI DSS). Label standardised across body + Contents.	Entirely new standalone cyber-liability cover (Schedule-operative). — Major new benefit; genuine cyber liability, not a bare exclusion.	Favourable	Yes	Yes	Material

C. Client Migration Implications (0223C → final)

Key points for clients and brokers moving an account from the TMHCC 0223C wording to the final wording:

Section numbers have changed — re-map any references. The standalone Information Technology Section (old S4) is removed and every section from old S5 onward is renumbered down by one. Any Schedule entries, endorsements, certificates or broker documents that reference OLD section numbers must be re-mapped to the new numbering (see the map above).

IT cover is retained, not lost. Information-technology PROPERTY and computer-breakdown cover is consolidated into Section 1 (premises) and Section 2 (Property & Equipment). Clients should be reassured the cover continues — underwriting to confirm no narrowing on consolidation.

Three new sections are available. Commercial Legal Expenses (S13), Management Liability (S14) and a standalone CyberGuard™ cyber-liability section (S15) are new. They are operative ONLY if shown as operative in the Schedule — confirm at renewal whether the client is buying them.

Claims handling has changed. Admission of Liability is now an ordinary condition (with a prejudice qualifier) rather than a blanket condition precedent; a new Proof of Ownership and Value condition applies; and the new liability sections (S12–S15) carry their own, stricter, section-specific notification (condition precedent). Brokers should brief clients on the differing notification rules per section.

General conditions and exclusions now target Sections 1–11. The general conditions and general exclusions are re-scoped to Sections 1–11; Sections 13–15 are governed by their own specialist terms, which prevail on any conflict. Read the new sections' own conditions carefully.

Money cover is restructured. Money is now presented as two Schedule-referenced extensions — 'Money – Premises' and 'Money – Touring, Festivals and Events' — with the touring/event extension adding event-money heads (safes/containers, assault on personal effects, employee dishonesty). Existing covers are preserved; sub-limits are Schedule-set.

Some enhancements are pending sign-off. The broadest Media Liability (S12) enhancements (Distributors & Purchasers, worldwide/US-Canada option, source-protection, representation costs, criminal/regulatory defence cross-reference, King's Counsel clause, pollution negligent-advice write-back) and the broadened S13 'Employee' and S12 'Computer System' definitions are tracked but NOT yet accepted — they require TMHCC underwriting/legal sign-off before being relied upon (see the UW Enhancement Register).

D. How this summary was produced

- Generated from a fresh, holistic 0223C→final tracked-changes redline (Phase 01), not from the prior 'recent enhancements' tracked changes.
- Each change is classified favourable / neutral / restrictive and flagged for broker explanation and underwriting/legal sign-off.
- UW Review Enhancements are distinguished from Base redline changes throughout.
- No cover has been invented and no exclusion or restriction has been softened in this description.
